1. INTRODUCTION

Schools are social systems which have numerous purposes to attain and the role of guidance and counselling is dynamic in shaping the discipline of the students. Guidance and counselling as the third force in education along with instruction, is an essential portion of educational structure. Guidance programs for secondary school students are planned to address the physical, emotional, social, vocational and academic difficulties of young student [3].

The UNESCO module on guidance and counselling also posited that Guidance is a program of services to individuals based on their needs and the influence of environmental factors [1].

But in Pakistan the concept of guidance and counseling is in rudimentary stage. The scenario is quite opposite in developed countries wherein educational and counseling is at full thrust, the students get benefit out of it. There are many reasons for the lack of guidance and counseling facilities in Pakistan such as law and order situation, inflation and political unrest. In Pakistan, educational counseling is a new idea. Only few educational institutions offer counseling services to students that too at university levels. Guidance and counselling services are important features in area supervision of persons in entire humanities [7].

Educate all students at an ever-high level of academic proficiency is a challenge. Leaving school before completing one’s studies, violence, abuse and so many things are the real issues and have a considerable impact on students and the educational development. In the school level counseling program germinate positive result in the domain of that areas. In the school management reduce safety risk and improve educational achievements, decrease dropout, increase rid of obstacles to learning and develop study skills and introduce seminar on awareness about career and for that planning.

Numerous burdens enforced on the family, parents tend to have slight time with their children to provide the vital guidance [6].

2. AIMS OF GUIDANCE & COUNSELING CENTER IN A SCHOOL

To provide continuous help to student in following areas.

- In educational context, assist to select course of study.
- Help in discovering and developing their personalities, attitudes and behavior.
- To help in solving own and other problems.
• To guide and help in selection of career.
• To understand and know himself present and possible future situations.

3. OBJECTIVES OF GUIDANCE & COUNSELING CENTER IN A SCHOOL

• Be independent, self-sufficient and balanced in personality and life.
• Become a useful person for self, family, school and society.
• Be able to choose career in right direction.

In the school student counseling centers provide assisting services to maximize student’s whole personality growth and development, in academic and personal and social problems and give path in challenges.

• Helping the students to recognize and determine their values, abilities, interest, skills and capacities and personality traits which will help them to chosen their careers and gear up them for the world of work and self-employment.
• The Guidance and counseling centers will provide opportunities for students to reach their full potentials in the all areas of life such as educational, vocational, social and emotional development

3. DESIGNING OF COUNSELING PROGRAM IN SCHOOL

School management first designed to be a framework for developing school counseling center/committee with the help of this designed framework they will decide how and where to use human and material resources and developing a program. That designed program will meet the need of the school and students.
